TROPICAL CYCLONE BULLETIN NO. 2F

Tropical Depression “GORIO”

Issued at 5:00 PM 04 August 2021

Valid for broadcast until the next bulletin at 11:00 PM today.

TROPICAL CYCLONE WIND SIGNALS IN EFFECT
No Tropical Cyclone Wind Signal is currently in effect.

HAZARDS AFFECTING LAND AREAS
<p>Heavy Rainfall Under the influence of the Southwest Monsoon, monsoon rains will be experienced in the next 24 hours over Ilocos Region, Cordillera Administrative Region, Batanes, Babuyan, Zambales, and Bataan. More information is provided in the Weather Advisory #5 for Southwest Monsoon and the 24-Hour Public Weather Forecast issued at 11:00 AM and 4:00 PM today, respectively.</p> <p>Severe Winds Occasionally gusty conditions associated with the enhanced Southwest Monsoon will be experienced over the Northern and Western Luzon especially in the coastal and upland localities of these areas.</p>
HAZARDS AFFECTING COASTAL WATERS
<p>In the next 24 hours, under the influence of the enhanced Southwest Monsoon</p> <ul style="list-style-type: none"> • Rough to very rough seas will be experienced over the seaboard of Northern and Western. Sea travel is risky for small seacrafts over these waters. Mariners without the proper experience should immediately seek safe harbor. For more information, see the Gale Warning #32 issued at 5:00 PM today. • Moderate to rough seas will prevail over the remaining seaboard of the country. Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. Inexperienced mariners should avoid navigating in these conditions.
TRACK AND INTENSITY OUTLOOK
<ul style="list-style-type: none"> • “GORIO” exited the PAR at 4:00 PM today. • The tropical depression is forecast to intensify into tropical storm in the next 12 hours. • On the forecast track, “GORIO” will move northeastward towards southern Japan, then after 24 hours it will turn more east-northeastward moving further away from PAR.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless re-entry occurs, this is the final bulletin for this tropical cyclone. Succeeding updates will be incorporated in the 24-Hour Public Weather Forecast at 5:00 AM tomorrow.
